ABSTRACT

The Mississippi Postsecondary Education Planning Board collects information and data relative to all public and private profit or nonprofit institutions or agencies engaged in education and training in the postsecondary education field in that state. This inventory of programs of study available in the state is designed to aid institutions in long-range planning. The tables contain information on areas such as: offerings by subject at all Mississippi institutions, 1974; offerings by subject at all junior colleges, 1974; degrees granted at four-year institutions, 1974; and a list of proprietary institutions with types of programs offered. (JMF)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

FOREWORD

The Mississippi Postsecondary Education Planning Board was created by an Executive Act of Governor William L. Waller and came into being on September 25, 1974. A function of the Planning Board is to collect information and data relative to all public and private profit or non-profit making institutions or agencies engaged in education and training in the postsecondary education field.

An inventory of programs of study available in Mississippi in all sections of the postsecondary education establishment was considered to be a useful tool for institutions as they engaged themselves in continuous long-range planning. This survey of programs of study available in the 1974 scholastic year resulted.
